I Dr. Neena Chatterjee The undersigned hereby certifies that the above mentioned report is a genuine report of the project work done by the students under my directions.

Wens

Dr. Neena Chatterjee

HOD. Economics

Date - 5 April 2023

ACKNOWLEDGEMENT

I wish to put on my record with my sincere gratitude to the following without either support and encouragement this project would not have been possible.

First of all I would like to give thanks to our principal Dr. Asha Agrawal and my teacher Dr. Neena Chatterjee for providing me such a great opportunity.

I would also like to give my very special thank to the development officer of LIC, Mr. Mayank Jain and LIC Advisor Mr. Kalpanamohan Saxena who helped me a lot in making this project and in research as well.

Additionally I would like to thank my parents and my friends & family for supporting me in making this project possible.

Saxena
Parichhi Saxena
B.A II Year

This is to certify that **Paridhi Saxena**, B.A 2nd Year of Sri Sathya Sai College for Women, Bhopal has completed her field project from **1st February 2023 to 16th February , 2023** and completed her work in insurance field under our guidance.

She is very hardworking , dedicated and goal oriented .

During her project she has done an excellent work.

We wish her all the best for her upcoming success.

Warm Regards

LIC Advisor - Mr. Krishna Nandan Saxena

OBJECTIVE

"To make people understand about the insurance sector & the importance of insurance in our life."

After reading my report on insurance, the person who doesn't know anything about it, will get basic & even useful information about insurance sector.

It's been correctly said that -

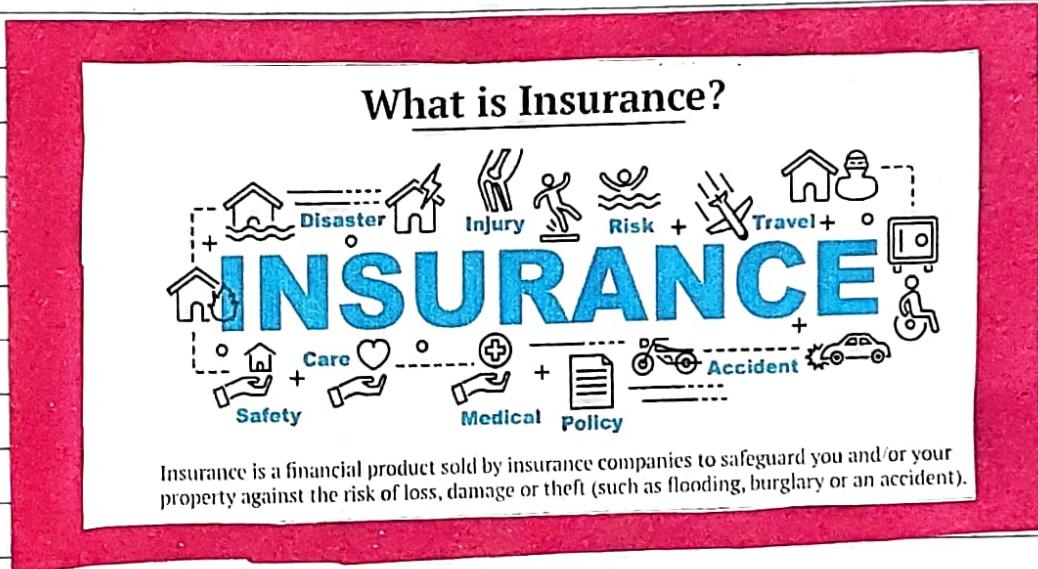

"Level of knowledge increases, when we share it"...

WORK
.....
FLOW

WHAT IS INSURANCE?

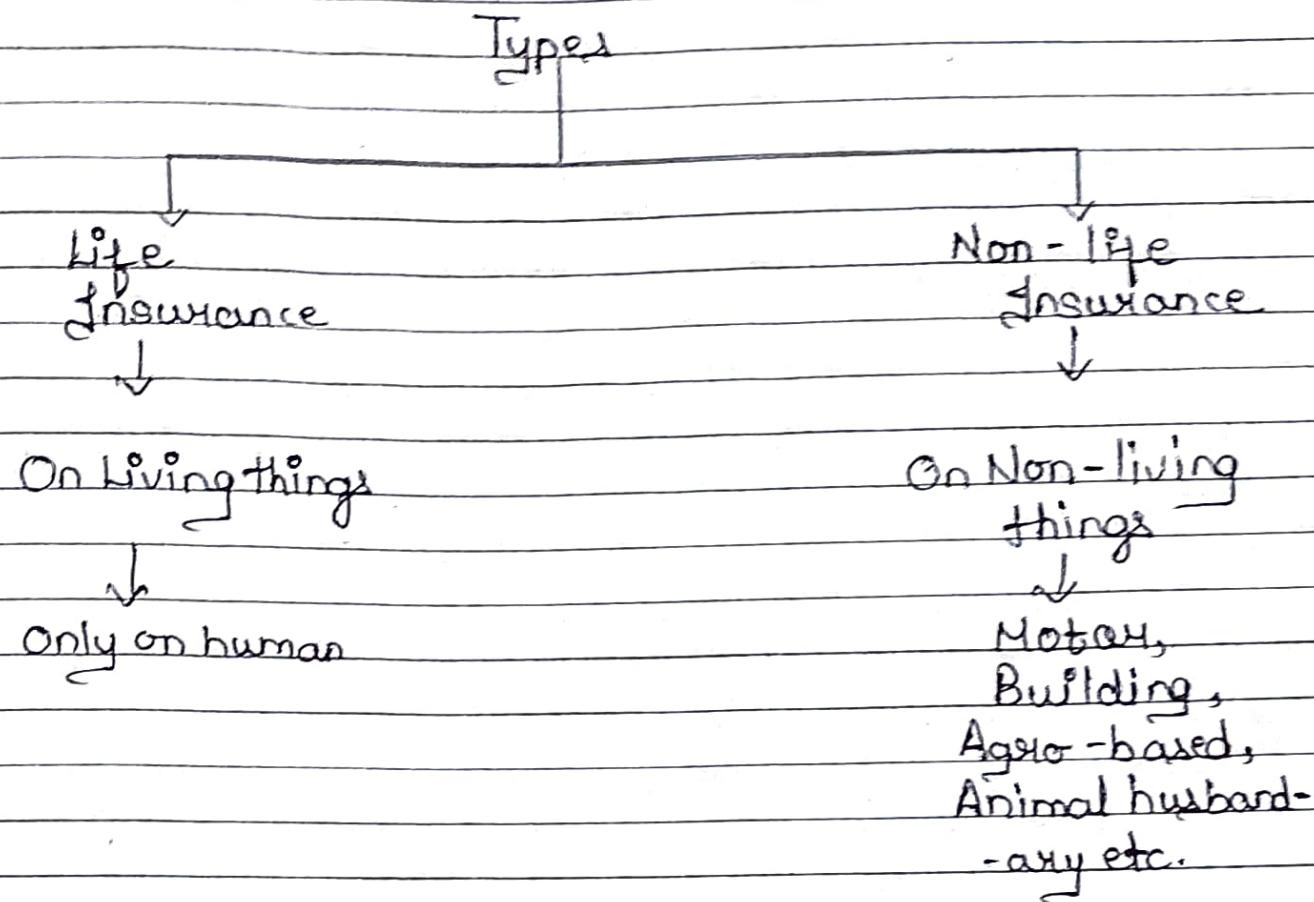

"Insurance can act as a vaccine, in need"

In layman's words, "Insurance is an arrangement with a company in which you pay them regular amounts of money and they agree to pay the costs e.g. if, for example, you die or are ill, or if you lose or damage something."

It can also be said as - "Insurance is a way to manage your risk. When you buy insurance, you purchases protection against unexpected financial losses. The insurance company pays on someone you choose if something bad happens to you."

Types of Insurance

Life Insurance

Life insurance policies provide protection against unforeseen circumstances such as the policyholder's death or incapacity.

Aside from providing financial security, many types of life insurance plans enable policy holder to optimize their savings by making recurring payments to various equity and debt fund alternatives.

Life Insurance includes :-

Term-life insurance

Whole life insurance

Endowment

Unit-Linked Insurance Plan (ULIP)

Plans for children.

Term Life Insurance

Term insurance is the purest and most inexpensive type of life insurance, allowing you to choose a high level of coverage for a certain period of time.

With a low cost term life insurance policy, you can protect your family's financial future.

If you die within the policy time, your nominees will get the agreed sum assured, depending on the payment type of you choose.

Whole Life Insurance

Whole life insurance plans, often known as 'conventional' life insurance plans, give protection for the policyholder individual's complete life (typically till 100),

While a whole life insurance policy pays a death benefit, it also has a savings component that helps the policy accumulate cash value over time.

Whole life insurance policies have a 100 year maturity period. If the insured person survives beyond the maturity age, the entire life insurance becomes a matured endowment.

Endowment

Endowment plans fundamentally give financial protection against life risk's while also allowing policyholders to save consistently over a certain length of time. If the policyholders survives the policy term, the endowment plan matures, and the policyholders receives a lump sum payment.

If something occurs to you (as the life insured), the life insurance endowment policy pays your family the whole sum assured.

Unit-linked Insurance Plan (ULIP)

ULIPs are insurance policies that combine investment and insurance advantages into one contract.

A portion of your payment for a Unit Linked Insurance Plan is invested in a range of market-linked equities and debt instruments.

The leftover premium is used to provide life insurance coverage for the duration of the policy. ULIPs provide you with the freedom to allocate premiums to different instruments based on your financial needs and market risk tolerance.

Plans for Children

Child plans are life insurance policies that assist you in financially securing your child's life goals, such as higher education and marriage, even if you are not there.

To put it another way, child plans combine savings and insurance benefits to help you prepare for your child's future requirements at the appropriate age.

The money obtained on maturity can be utilized to help your child meet his other financial needs.

Non-life Insurance

Non-life insurance also known as General Insurance. So, General Insurance plans are one of the types of policies that provide coverage in the form of sum assured against damages besides the policyholder's demise.

Health care coverage:-

Health insurance is a form of insurance policy that covers the cost of medical treatment. Health insurance policies either cover or repay the costs of treatment for any included disease or injury.

The following are the health insurance policies available in India:-

Individual Health Insurance

provides coverage to a single person.

Family Floater Insurance

This type of insurance allows your complete family to be covered under one policy, which often includes the husband, wife, and two children.

Critical illness Coverage.

A sort of healthy insurance that covers a variety of life threatening illnesses such as stroke, heart attack, renal failure, cancer, and other comparable conditions.

Senior Citizen Health Insurance.

These insurance policy are designed for people over the age of 60.

Group Health Insurance

This is a type of insurance that a business provides to its employees.

* Automobile Insurance

Motor insurances are forms of insurance that provide financial help in the event that your automobile is involved in a crash.

In India,

Car Insurance

This plan covers privately owned four-wheelers. There are two kinds of Automobile insurance plans : third party insurance and extended coverage policies.

Critical Illness Coverage.

A sort of healthy insurance that covers a variety of life threatening illnesses such as stroke, heart attack, renal failure, cancer, and other comparable conditions.

Senior Citizen Health Insurance.

These insurance policy are designed for people over the age of 60.

Group Health Insurance

This is a type of insurance that a business provides to its employees.

* Automobile Insurance

Motor insurances are forms of insurance that provide financial help in the event that your automobile is involved in a crash.

In India,

Car Insurance

This plan covers privately owned four-wheelers. There are two kinds of Automobile insurance plans : third party insurance and extended coverage policies.

Bike Insurance.

These are forms of automobile insurance that protect privately owned two-wheelers in the event of an accident.

Commercial Vehicle Insurance.

A sort of automobile insurance that covers any vehicle utilized for commercial purpose.

★ Homeowner's Insurance.

A homeowners' insurance, as the name implies, provides full coverage for the belongings and infrastructure of your property against physical destruction or damage.

Home building Insurance.

Serves to protect the house's foundation from destruction in the event of a disaster.

Public Liability Coverage

Protects the insured residential property from any harm caused by a visitor or third-party while on the premises.

Standard fire & special perils policy.

"Getting insurance is your responsibility for your family and loved ones.

You may hate it - but it's your responsibility"

All through this project report and research about insurance sector I came to realize how much insurance is important to our lives.

During pandemic, each one of us has experienced financial loss, health loss, family loss and what not.

According to report,

An average person who was hospitalized in Delhi during pandemic for 14 days can end up paying up to ₹ 2 lakhs without ventilation.

Pandemic was the time of realization time about the importance of our lives & insurance also.

Thus, insurance keeps us safe. Trust it.

MY OBSERVATIONS

While researching about insurance sector & Life Insurance Corporation of India I came to know that in despite LIC is the largest insurance company of India, many people do not have any kind of insurance.

There may be a lot of reasons I have understood:

- * **Lack of Awareness** - People may not be aware about the importance of insurance in our life.

Lack of Resources - One of the most major cause for not having enough resources to have insurance.

They could not have enough money to opt insurance for secure their family's future.

- * **Lack of Institution** - In backward areas there is a lack of institution of insurance from where they could be get insured.

- * People should be assured about the insurance company -

There should be trust among people about

insurance sector & company as well.
Most people couldn't trust many company
because of fraud schemes in the market.

These were the few reasons I have observed,
there could be many more reasons for & not
pursuing insurance.

LIC ADVISOR -

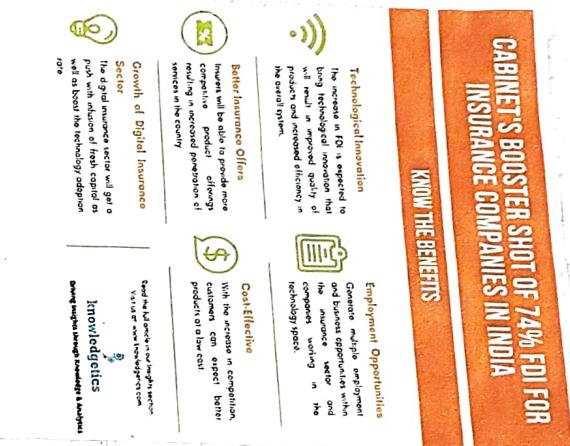

Mr. Kalishnamohan
Saxena.

INSURANCE SECTOR IN INDIA

The insurance sector in India consists of total 57 insurance companies. Out of which 24 companies are the life insurance providers and the remaining 33 are non-life insurers. Out of which there are seven public sector companies. In the past of insurance sector in India -

In the history of the Indian insurance sector, a decade back, LIC was the only life insurance provider. Other public sector companies like the National Insurance, United India Insurance, Oriental Insurance and New India Assurance provided non-life insurances or say general insurance in India. However, with the introduction of new private sector companies, the insurance sector in India gained a momentum in the year 2000. Currently, 24 life insurance companies and

30 non-life insurance companies have been aggressive enough to rule the insurance sector in India.

But, there are yet many more insurers who are awaiting IRDAI approvals to start both life insurance and non-life insurance sector in India.

The future of Insurance Sector in India -

Though LIC continues to dominate the insurance sector in India, the introduction of the new private insurers will see a vibrant expansion and growth of both life and non-life sectors in 2017.

With the increase in income and exponential growth of purchasing power as well as household savings, the insurance sector in India would introduce emerging trends like product innovation, multi-distribution, better claims management and regulatory trends in the Indian market.

The government also strives hard to provide insurance to individuals in a below poverty line by introducing schemes like the -

Paradhan Mantai Suraksha Bima Yojana
परमाणु (PMSBY)

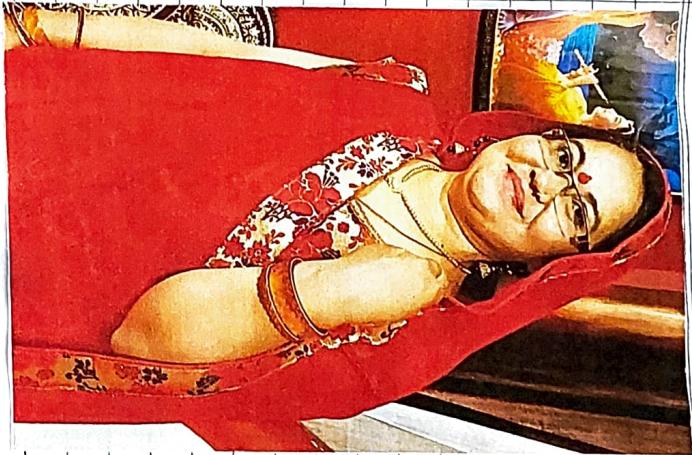

Rashtriya Swasthya Bima Yojana (RSBY)

Paradhan Mantai Teevan Tyoti Bima Yojana
(PMJBY)

STAKE / HOLDER

POLICY

HOLDERS

"Life insurance policy has given me a sense of protection for my family. As I'm the only working person in my family, for my daughter's future, it could help a lot for her education & career."

- Mrs. Savita

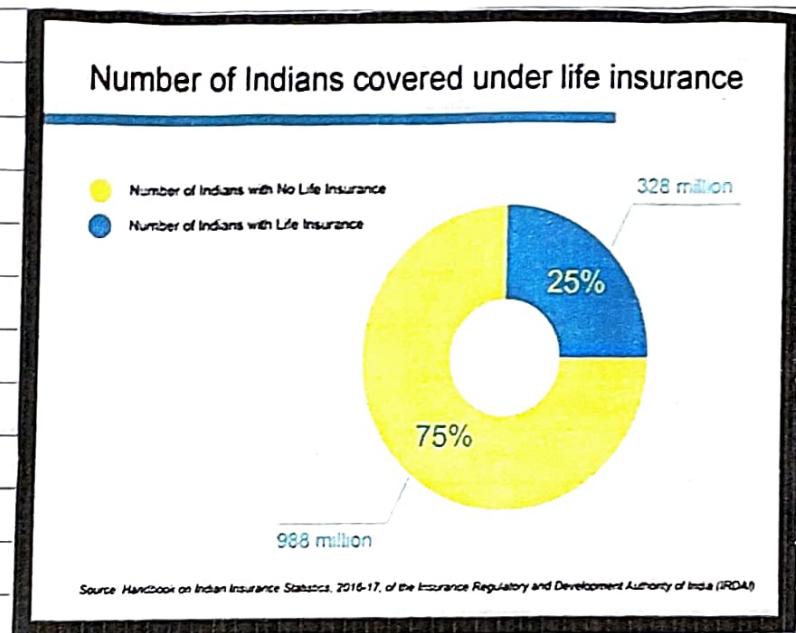

Saxena

"Being a policy holder, I can say that life insurance is very important and non-life insurance is equally important as well. I'm teacher by profession. I opted for both kind of insurance for a secured future."

- Mr. Nirmal.

ANALYSIS OF DATA

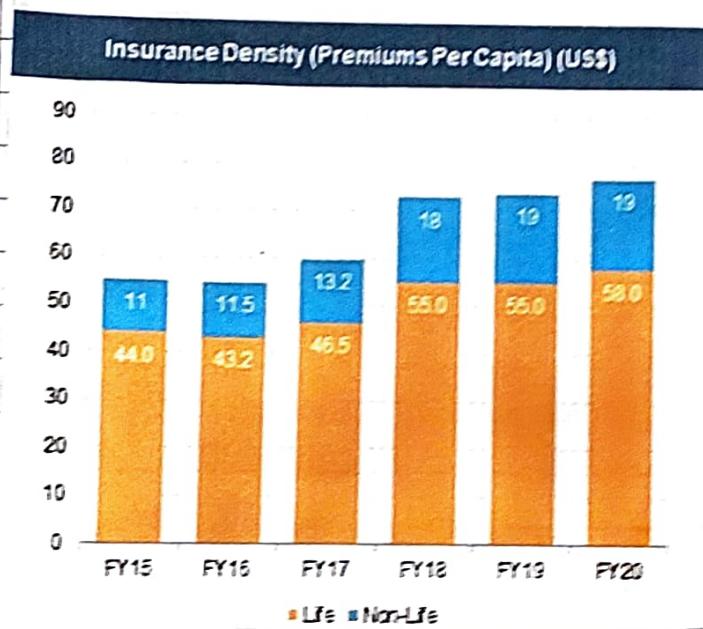

This graph shows that 75% of people in India does not have life insurance.

25% does have life insurance.

It's actually not a good thing to inform but atleast 25% are aware of importance of life insurance.

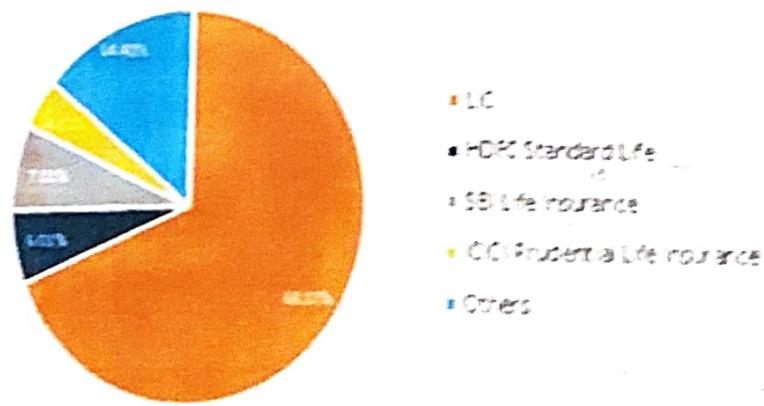

There's a need to aware people about the insurance sector.

It's benefits, It's importance.

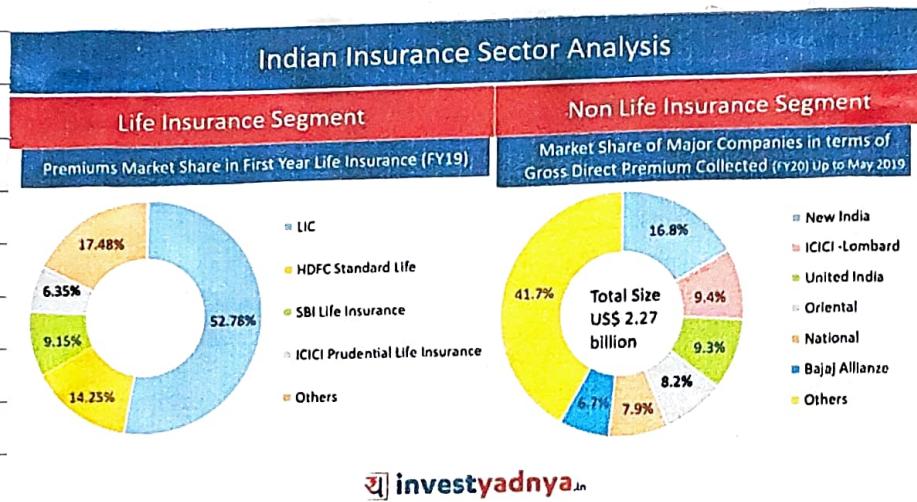

* This graph shows about the Insurance Density.

Premiums Market Share in First Year
Life Insurance (FY23*)

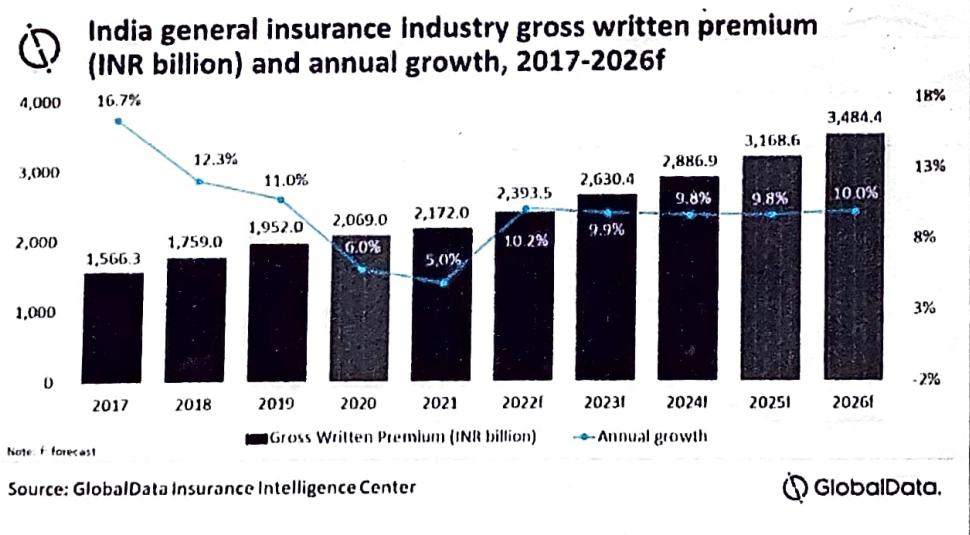

* This graph shows the share of different life insurance companies premium.
LIC has the highest share.

* This graph shows the shares of different companies in Life Insurance & non-life insurance.

LIC has 52.78% in Life Insurance & New India has 16.8% alone in Non-life Insurance.

* This graph shows the gross written premium and annual growth comparison.

CHALLENGES

The very first challenge I faced

- * To deciding a topic for a project report.

Secondly,

- * To collect information about the insurance sector, which I've chose as a topic for a project report.

- * To connect to the institute of insurance sector as it was a very tough task.
And taking their permission to make a project report & doing a case study of LIC at the institute.

- * To compile such a vast information in few pages. This was my biggest challenge.

- * To combine such a information in such a way, that it will reflect my objective for this project report.

Objective - To make people understand about the role of insurance in our life.

CONCLUSION

This project report has all the needed & brief information about the insurance sector.

What is insurance?

How it works?

What are its types etc.

Even it includes information about Life Insurance Corporation of India, the largest insurance company of India.

At the end of the report, it has some statistics about the insurance sector.

I finally conclude that insurance is really very important for our life and insurance sector can be a great career option as well.

This report includes the basic information about insurance sector and case-study of Life Insurance Corporation of India. And it also includes my experience about working in this sector.

COMPONENTS

Premium

It is the money you pay to the insurance company to avail of insurance policy benefits.

Policy limit

Policy limit applies to health and general insurance policy where compensation depends on the amount of loss. The policy may limit the maximum compensation for certain types of losses.

Deductible

Deductible applies to general insurance and health insurance policies. A deductible is the maximum amount of loss you will bear out of your pocket.

The insurer will start paying only when your losses rise above the deductible limit.

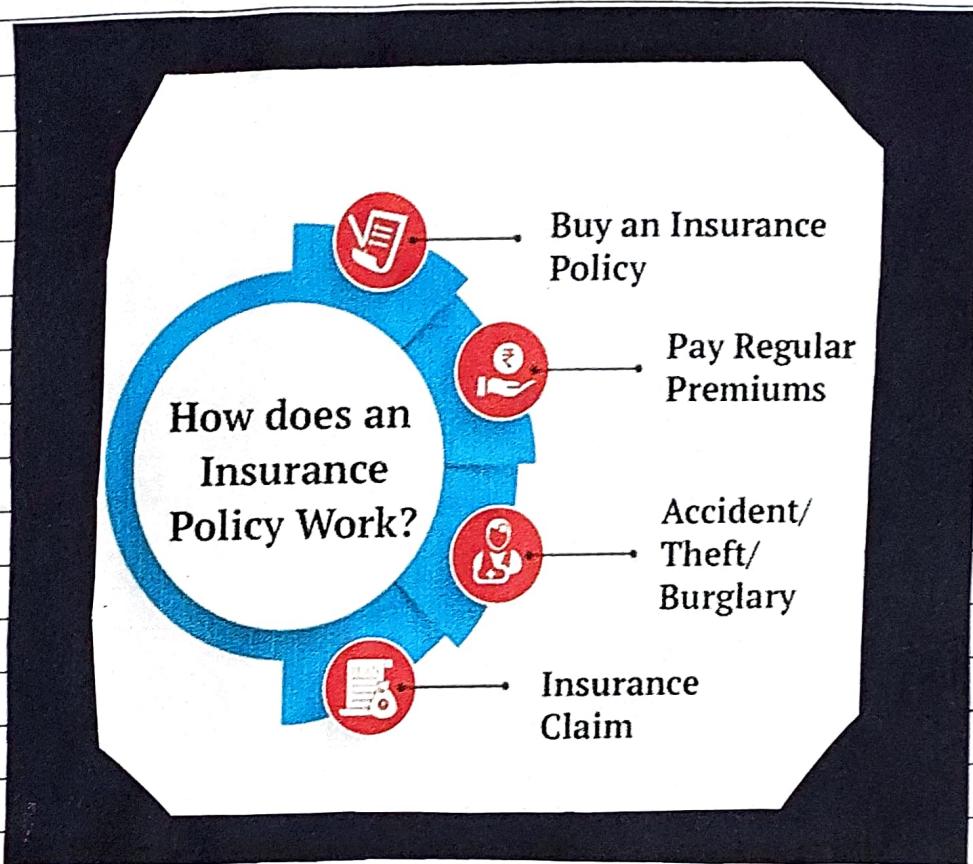

Sum Insured -

Sum Insured is applicable for a non-life insurance policy like home & health insurance. It refers to the maximum cap on the costs you are covered for in a year against any unfortunate events.

Sum Assured

Sum Assured is the amount the life insurance company pays to the nominee if the insured event happens (death of insured).

HOW IT WORKS ?

Insurance is a legal contract between the insurer and the insured. The insurance policy lists all the policy's conditions and circumstances under which the insurance company is liable to pay you or the nominee the insurance amount.

When you buy an insurance policy from the insurance company, you will have to make regular payments (premium) for a specified period towards the insurance policy.

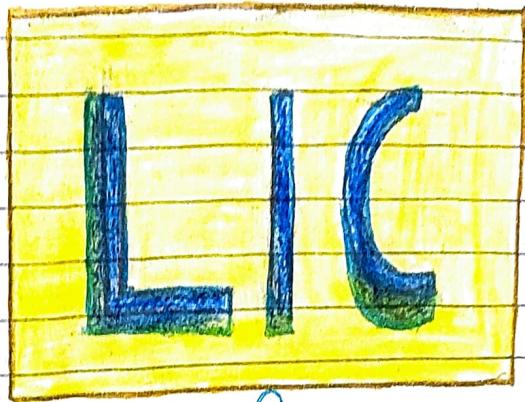

The Insurance company collect the premium from all the clients. They pool the money for losses that may arise out of an insured event. If you don't claim during the policy tenure, you may or may not receive any benefits. It depends on the policy type and the condition.

"Your welfare is our

Responsibility"

MISSION

To enhance the quality of living of the people by providing financial products and services that provide competitive returns.

Being one of the most oldest and largest government owned life insurance companies, LIC of India continues to be the dominant life insurer even in the liberalized scenario of the Indian Insurance sector.

For over years now, the company is surpassing its own past records.

LIC offers an array of life insurance plans including a range of ULIPs, pension plans, child plans, term insurance and others.

OBJECTIVES

- * The primary objective of LIC of India is to spread the importance of life insurance widely in the rural areas and people belonging to socially and economically backward classes.

The company functions with a view of providing such individuals with financial cover against death at a reasonable cost.

- * The company strives hard to meet various life insurance needs of the community depending on the changing social & economic environment.

- * The main focus of the LIC of India is to safeguard the interest of the life insureds and act as a trustee in their individual and collective capacities.
- * Maximize the ability of saving by providing a diverse range of life insurance products to choose from.
- * LIC of India fully encourages the participation and involvement of its employees and LIC agents so they work towards attaining the objectives of the company.

LIFE INSURANCE PRODUCTS

In India, LIC is synonymous with life insurance as the company is a pioneer in offering the best life insurance products that cater to every budget and preferences.

Here are various life insurance products offered by the LIC:

Endowment plans

LIC Jeevan Pragati

LIC Jeevan Labh

LIC Single Premium Endowment plan

LIC's New Endowment plan

LIC's New Jeevan Anand

LIC's Jeevan Rakshak

LIC's Aadhaar Shila

* Whole Life Insurance Plans

LIC Jeevan Umang

- Self-attested photograph.

Que- How to pay premium?

- Premium of your LIC policy can be paid offline at the cash counter at any LIC branch office.
- Premium can be paid in cash, cheque or demand draft.
- Premium can be paid online as well.

LITERATURE

REVIEW

Dr. P.K. Gupta (2000)

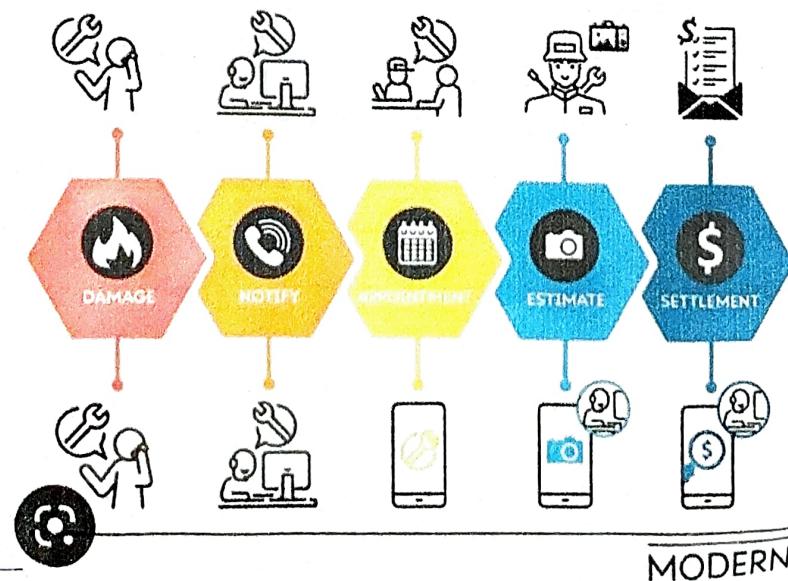

Article - "Exploring Rural Markets for private life insurance players in India."

tried to examine the present affairs of rural life insurance.

The study brought out interesting facts to lights like rural insurance

A firm belief among the insurance companies is that agents are best suited for tapping the rural segments.

TRADITIONAL

Venkatasamani .K , Dr.R.Mohan Kumar , Dr.C.Binda
(2015)

"A study on the attitude of consumers and insurance agents towards the proposed increase in Foreign Direct Investment (FDI) in insurance sector in India"

Andres Cudlamat and Jay Stephen Siy (2017)

The authors highlighted that the sustainability of the life insurance business is crucial for developing economies.

The paper examined the influence of selected firm level, industry level and macro level factors on ROA (a measure of profitability) of Life Insurance Companies.

The result shows that most of the firm level factors affected ROA while industry level and macroeconomic factors have not much effect on it.

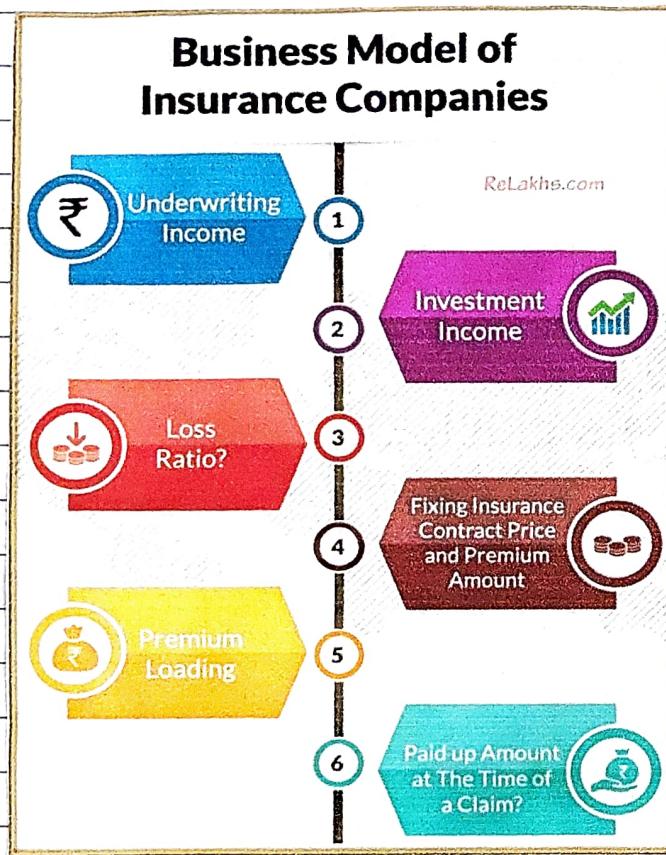

WORK

DONE

RESEARCHED ABOUT INSURANCE SECTOR

* What is Insurance?
Well I already knew little bit about Insurance but through this report I've understood how Insurance even works.

During my project report, on insurance I even got connected to LTC's development officer & LTC's advisor. They both helped me a lot to understand about insurance sector & LTC.

My Objective.

To make people understand about the role of insurance in our life.

Through this report, I've tried to aim to my objective.

"Getting insurance is your responsibility to your family and loved ones.

You may hate it - but it's your responsibility

All through this project report and research about insurance sector I came to realize how much insurance is important to our lives.

During pandemic, each one of us has experienced financial loss, health loss, family loss and what not.

According to report,

An average person who was hospitalized in Delhi during pandemic for 14 days can end up paying up to ₹ 2 lakhs without ventilator.

Pandemic was the time of realization time about the importance of our lives & insurance also.

Thus, insurance keeps us safe. Trust it.

MY OBSERVATIONS

While investigating about insurance sector & Life Insurance Corporation of India I came to know that in despite LTC is the largest insurance company of India, many people does not have any kind of insurance.

There may be a lot of reasons I have understood:-

- * **Lack of Awareness** - People may not be aware about the importance of insurance in our life.
- * **Lack of Resources** - One of the most major cause for not having enough resources to have insurance.

They could not have enough money to opt insurance to secure their family's future.

- * **Lack of Institution** - In backward areas there is a lack of institution of insurance from where they could be to get insured.
- * **People should be assured about the insurance company** -

There should be trust among people about

insurance sector & company as well.
Most people couldn't trust many company
because of fraud schemes in the market.

These were the few reasons I have observed,
there could be many more reasons for & not
pursuing insurance.

CABINET'S BOOSTER SHOT OF 74% FDI FOR INSURANCE COMPANIES IN INDIA

KNOW THE BENEFITS

- Technological Innovation**
The increase in FDI is expected to bring technological innovation that will result in improved quality of products and increased efficiency in the overall system.
- Employment Opportunities**
Generate multiple job opportunities within the insurance sector and companies working in the technology space.
- Better Insurance Offers**
Insures will be able to provide more competitive product offerings resulting in increased penetration of services in the country.
- Cost-Effective**
With the increase in competition, customers can expect better products at low cost.
- Growth of Digital Insurance Sector**
The digital insurance sector will get a push with inflow of fresh capital as well as boost the technology adoption rate.
- Knowledge**
Driving insights through Knowledge & Analytics

30 non-life insurance companies have been aggressive enough to rule the insurance sector in India.

But, there are yet many more insurers who are awaiting IRDAI approvals to start both life insurance and non-life insurance sectors in India.

The future of Insurance Sector in India -

Though LIC continues to dominate the insurance sector in India, the introduction of the new private insurers will see a vibrant expansion and growth of both life and non-life sectors in 2017.

With the increase in income and exponential growth of purchasing power as well as household savings, the insurance sector in India would introduce emerging trends like product innovation, multi-distribution, better claims management and regulatory trends in the Indian market.

The government also strives hard to provide insurance to individuals in a below poverty line by introducing schemes like the -

Paradhan Mantaee Suraksha Bima Yojana
PMSBY

Rashtriya Swasthya Bima Yojana (RSBY)

Paradhan Mantaee Teevan Tyoti Bima Yojana
(PMTTBY)

"Life insurance policy has given me a sense of protection for my family. As I'm the only working person in my family & for my daughter's future it could help a lot for her education & career."

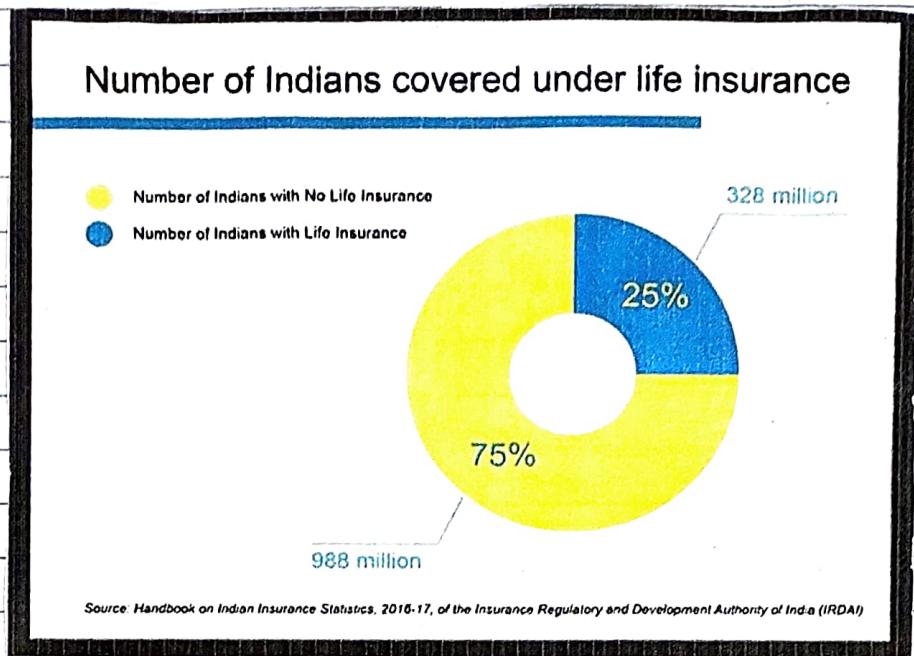

- Mrs. Savita
Saxena.

"Being a policy holder, I can say that life insurance is very important and Non-life insurance is equally important as well. I'm teacher by profession. I opted for both kind a insurance for a secured future."

- Mr. Nimal.

ANALYSIS OF DATA

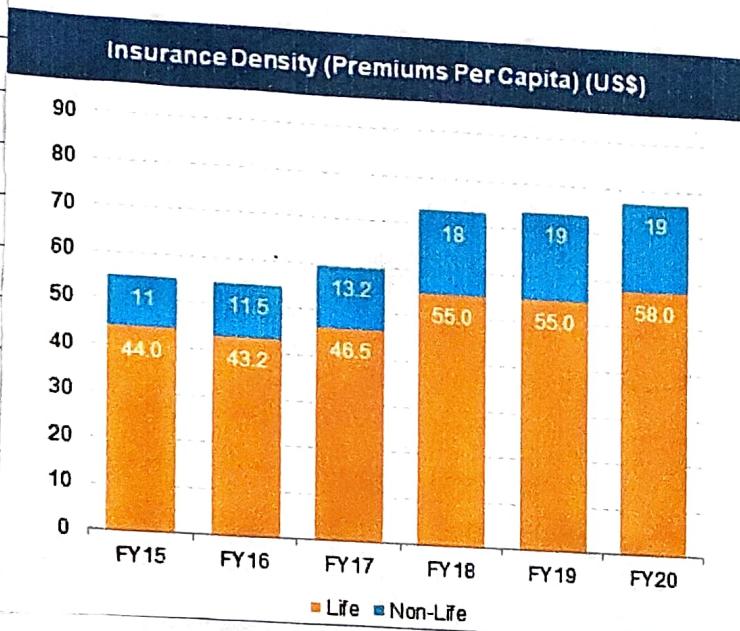

This graph shows that 75% of people in India does not have life insurance.

25% does have life insurance..

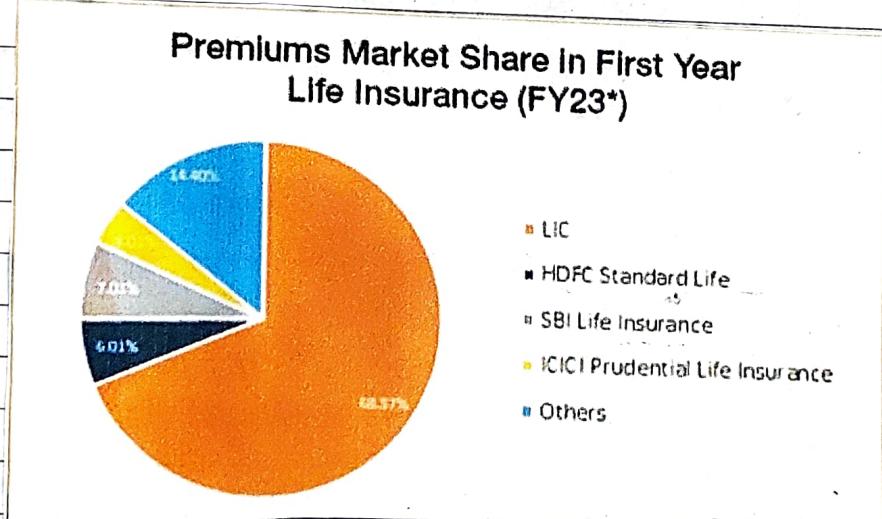

It's actually not a good thing to inform but atleast 25% are aware of importance of life insurance.

There's a need to aware people about the insurance sector.

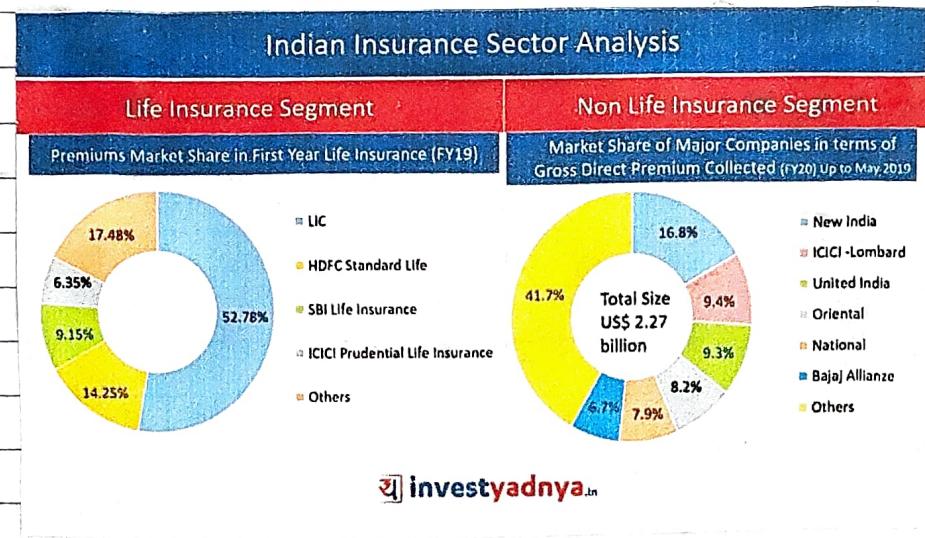

It's benefits , It's importance.

* This graph shows about the Insurance Density.

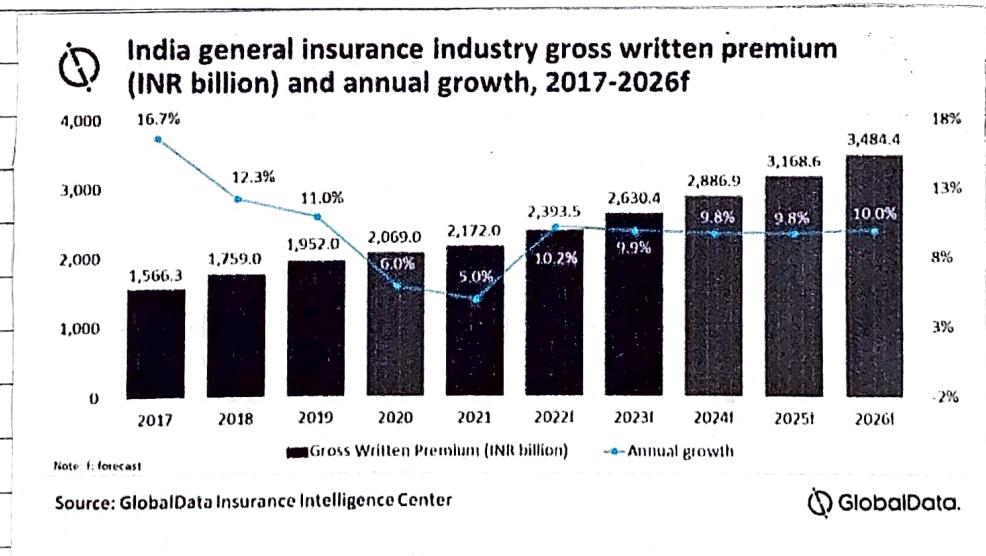

* This graph shows the share of different life insurance companies premiums.
LIC has the highest share.

* This graph shows the shares of different companies in Life Insurance & non-life insurance.

LIC has 52.78% in Life Insurance & New India has 16.8% alone in Non-life Insurance.

* This graph shows the gross written premium and annual growth comparison.

CHALLENGES

The very first challenge I faced

- * To deciding a topic for a project report.

Secondly,

- * To collect information about the insurance sector, which I've chose as a topic for a project report.

- * To connect to the institute of insurance sector as it was a very tough task.

And taking their permission to make a project report & doing a Case study of LIC on the institute.

- * To compile such a vast information in few pages. This was my biggest challenge.

- * To combine such a information in such a way, that it will reflect my objective to you this project report.

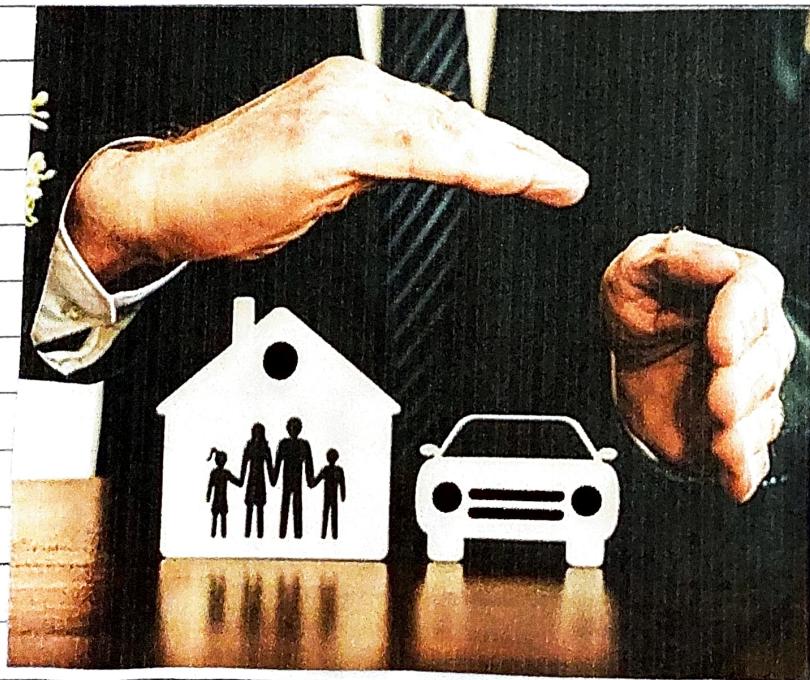

Objective - To make people understand about the role of insurance in our life.

CONCLUSION

This project report has all the needed & brief information about the insurance sector.
What is insurance?
How it works?
What are its types etc.

Even it includes information about Life Insurance Corporation of India, the largest insurance company of India.

At the end of the report, it has some statistics about the insurance sector.

I finally conclude that insurance is really very important for our life and insurance sector can be a great career option as well.

This report includes the basic information about insurance sector and case-study of Life Insurance Corporation of India. And it also includes my experience about working in this sector.
